Volvo Penta has begun stocking spare parts that are not painted. Many parts that are stocked service more than one engine, many times these engines are different colors. To reduce inventory at your facilities and ours we will not offer these parts in each color.

Paint is offered for all engine and drive colors. Check the parts catalog or accessories catalog for part numbers offered in your market.

Note! Paint is classified as a hazardous material for shipping. There are restrictions on how it can be shipped in almost all markets. Express or overnight shipping is not possible.
