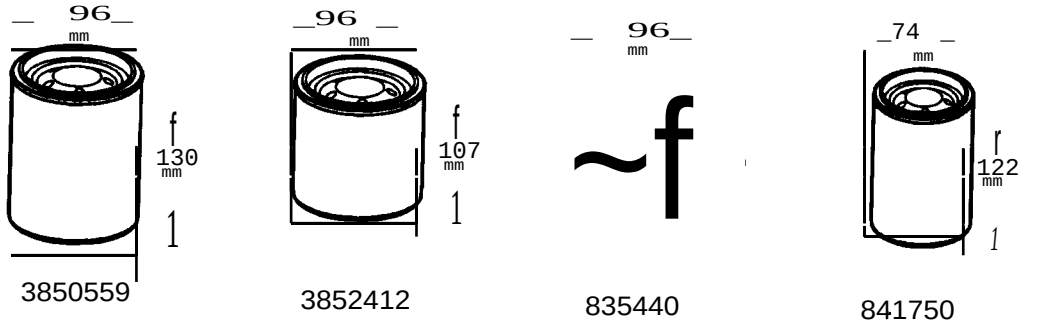
Oil Filters

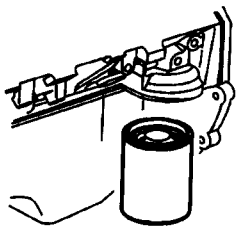
Models: all GM engines

Distribution: Parts Date: March 2005 Binder: Parts Replaces: N/A

These are the oil filters for GM engines;



23685



23687

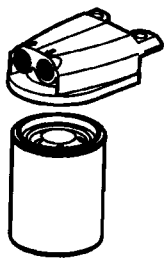
Oil filters mounted on block;

3.0L engines: 835440 and 3852412

V6 engines: 841750

va engines: 3850559, 835440 and 3852412

3852412 is shipped on some engines, it is replaced by 835440 in the Parts system.



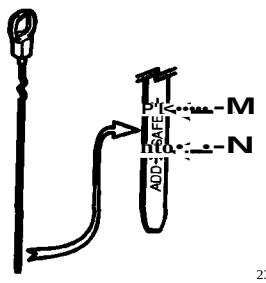
23687

For remote oil filter kits;

Use 3850559 or 835440.

Note! for later 8.1l engines only use 835440, 3850559 will not clear the ignition coils mounted below the filter.

Note! for 7.4/8.2l only use 3850559.



23528

Caution! Gas engines require a precise oil fill level to operate correctly. Overfilling results in high operating temperatures, foaming (air in oil), loss of power and reduced engine life. Underfilling causes loss of lubrication. Always check for correct oil fill on the **dipstick** when changing engine oil.

M=maximum, N=minimum
