Group Number Version  
P-28-4 17 01

### New Invoice Policy for Software

Models: All VODIA supported ECU's except EGC and EDC1

Distribution: Parts Date: 07-2010 Binder: Parts Replaces:

Information regarding new invoice policy for downloads of software.  
Please find below the new invoice policy which was introduced week 719.

	1. Accessory Kit (Upgrade)	2. Reloading of an empty control unit (Upgrade)	3. Reloading of a programmed control unit (Update)	4. Campaign
All Users	Invoice Yes	Invoice Yes	Invoice No	Invoice No

1. An invoice will be created for all users when an Accessory Kit (upgrade of software functionality) is ordered on Volvo Penta Partner Network.
2. Programming of an empty control - e.g. a new control unit from our Parts Warehouses - is treated as an upgrade and will be invoiced.
3. Programming of an existing control unit - already programmed once - is treated as an update and will not create an invoice.
4. All software campaigns are free of charge.

#### IMPORTANT!

If the software isn't reported back to the central systems within 28 days an invoice will be issued.

This rule applies for both columns 2 and 3 above.

Software downloads to campaign related hardware, must be reported back to central systems, otherwise an invoice will be created after 28 days.
