Diode kit for engine control units on D3/EDC15 engines

Models:

Distribution: Parts Date: 04-2010 Binder: Parts Replaces:

Production: N/A
After market: Diode kit 21371661 is available from Volvo Penta Parts.

When replacing engine control unit part # 3586930 and when installing accessory relay on Volvo Penta 03 engines we also recommend that a diode kit be installed. The diode provides extra protection against inductive loads that otherwise might harm the system.

Diode connection instructions are included in the kit.
