DPH/DPR U-Joint Bellows

Models: DPH, DPR

U-joint bellow part No 3808898 is introduced for the DPH/DPR drives. These bellows must be used for DPH/DPR drives.

The bellows kit part No 876294 should only be used for DPE/DPG drives.

If bellows kit 876294 is used for DPH/DPR drives there is a risk that the u-joint might interfere with and cause damage to the rubber bellows.
