Launch of Volvo Penta branded interceptors, Boat Trim System

Models: Accessories

Distribution: Parts Date: 2010-10-07 Binder: Parts Replaces:

The Volvo Penta Boat Trim System - which will be launched this fall - is an updated, improved version of the existing QL Boat Trim System. During the first stage in October interceptors (trim tabs) marked Volvo Penta will be launched. This means that during a transitional period QL Boat Trim System kits will be delivered that contain interceptors marked Volvo Penta.

A new Parts Bulletin presenting the Volvo Penta Boat Trim System, in which innovations, improvements and new part numbers specified, will be released shortly.
