Propeller Update, T-series T2-T6
Models: Marine Transmissions

Supplier change on the T2-T6 propeller

Due to supplier change the forthcoming propellers will have a grinded surface instead of the old polished one.

This will not have any effects on the performance or other technical aspects.

Concerned PIN:
3861092 - 3861106

This is a RUNNING CHANGE without change of PIN. This means that during a period we will have both types of propellers.
