Mercruiser Scan Tool Question

Hello:

Rinda has an update for the Mercruiser Scan tool which comes with new chips and instructions on how to install. It is part number 94056 with a price of \$175.

If you have a techmate (instead of the Merc one) then the part number is 94040U for the same price.

Thank you.

J.d.

Hi have
Version 1

:

Hello:

What version of tech mate do you have? Rinda says that almost all of their units support the 2.8.

J.D.

Mercruiser

Hi

Please I want information

The software my scan tools isn't good for my boat

I have a 2.8 d-tronic mercruiser

It possible to change the software the scan tools ?
