

Volvo Penta

Volvo Penta KAD42P-A Head Bolt Reuse Question

Volvo Penta KAD42P-A

Would like know how many times you can reuse the headbolts

Thank you,

C.

Hello:

By the manual you are not supposed to use the headbolts more than once. You have to stretch them a certain amount of degrees at the end of the tightening sequence.

So you should purchase new head bolts. However, I have seen some people use them a second time. It is not recommended, but certainly not more than twice.

The new bolts (27 of them) are \$8.03 each (part number 838778).

Hope this helps.

J.D.
