

Volvo Penta

I am looking for accessories kit #877116, where can I find it?

The Accessories kit 877116 is NLA, but we could supply all the parts that were in the kit (see attached quote).

However, you don't get the nice blue box that used to contain all the parts so your actual cost is less but you have to come up with your own storage.

Unique solution ID: #1234
