

Volvo Penta

Where can I find cam part #827009?

The cam part 827009 is no longer sold separately. Instead Volvo Penta sells a complete kit that includes cam (21951370).

I also included the other three kits that you might need to rebuild your pump.

Volvo Penta

has split the single overhaul kit into four sub kits (21951370, 21951418, 22222936 and 21951302).

Unique solution ID: #1249
